2 Understanding file systems

A file is a unit of storage on a computer

files of file plain text, markup and markdown

file extensions

the relationship between file extensions and programs

A file system contains files and folders

files systems are hierarchical

folder is a directory `getwd()`, `dir()` in R, `cd`, `pwd` in unix, `os.getcwd()` in Python

using a file explorer, showing file extensions

Paths

Working directory

Relative and absolute paths

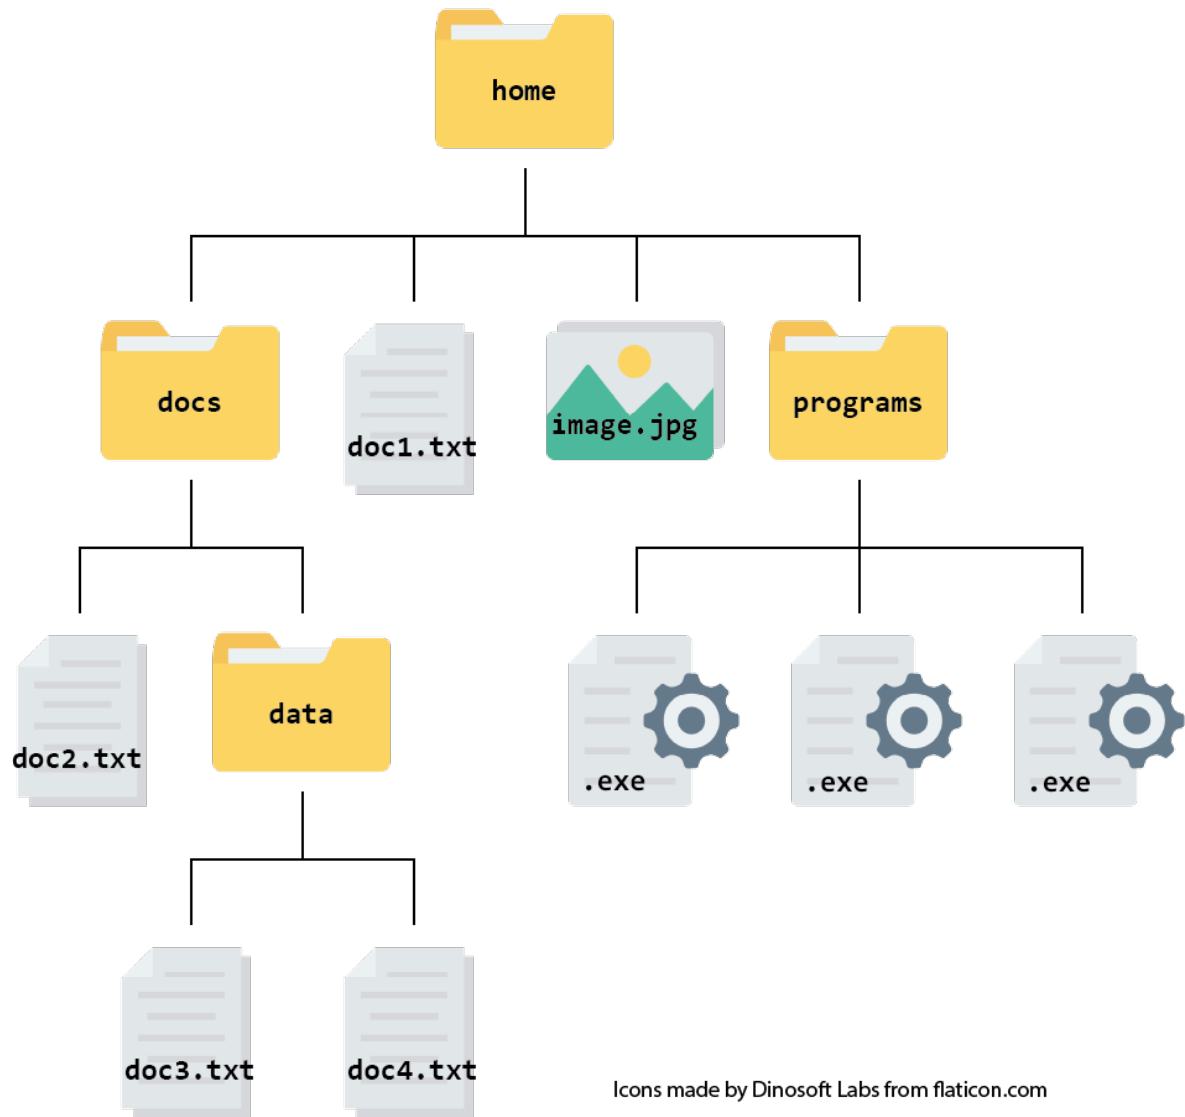

Figure 2.1: A file hierarchy containing 4 levels of folders and files

3 Summary

In summary, this book has no content whatsoever.
